

## Marking Die Segments KCMARKH Series

- Imprints your own custom message, logo, or date code on the ferrule during the crimping process.
- Purchase your own custom set of letters, numbers, symbols and spacer blocks; which can be arranged and rearranged in any manner to create various branding messages or date codes for hose traceability.
- Used in conjunction with standard die set for that size, and replaces one of the eight standard die segments with marking die segment.
- Marking varies in height from 1.5 mm to 4 mm, and in length from 10 to 15 characters, depending on die size.
